Commercial Use License

Enables You to use the Font Files for Commercial Work. The Commercial use license allows You to create media that will represent an individual, company or organization.

Commercial Use License does not grant the use of Fonts in Mobile Applications, Games, e-Books, Software and other Devices. You may not embed or include Fonts in products such as applications for Apple, Android, Mobile Windows or others; Video Games, Software, or any other piece of Digital Software unless You contact the Author and apply for a license extension. Commercial Use License excludes the use in network television shows, movies, broadcasts, documentaries, cartoons etc. All of which is covered in the EULA.

Commercial use does not allow You to use systems such as @Font-Face, EOT, EOTlite, Flash, sIFR, Cufon, Java, CSS, Typeface.js, or any other technologies that convert OTF & TTF Font Files to be used on the Internet under any circumstances. Font Files must not be embedded into websites or any web elements. You may use static images of text in an image format, for example .PNG. You are not permitted to repackage Fonts as web Fonts or any Font Files within a package to resell in E.g.- template packages for e-commerce stores or blog themes.

License extensions can be purchased to allow the above things, please contact the author.
